

Celebrating 60 years of fuzzy

**to the melody of the US National Anthem**

Oh how fuzzy all is in the dawn's early light  
And how proud we are that there are fuzzy methods  
Sixty years ago Zadeh had an insight  
And in many domains fuzzy logic has settled  
It's applied to control, it's applied everywhere  
And this proves to the world : fuzzy logic's still there  
And about its future : fuzzy will, it appears,  
Still be used and prosper in the next sixty years !

Vladik Kreinovich
